

the annex philosophy

Here at the annex we want you to “feel good about feeling good” knowing that a portion of all product sales will be donated to a local charity. In an effort to give back to this wonderful community we call home, every quarter we will choose a local nonprofit organization that does a lot of great work for those in our area who are in need.

Many of the products that we carry at the annex are environmentally friendly. Certain items are biodegradable and many are recyclable, so you can feel good about investing in your community and also making Mother Earth smile.

no tipping ever

After your relaxing treatment, the last thing we want you to have to worry about is figuring out how much to tip your therapist. Here at the annex, we have a NO TIPPING POLICY.

We want you to enjoy your experience and time with us and not have to worry about math. You can leave knowing that our exceptional therapists are well compensated. This makes the whole check out process easier for you and our staff.

- Dr. Martha E. Stewart and the staff at the annex
